

ATHER QURESHI

SOFTWARE ENGINEER | BUSINESS INTELLIGENCE

atherqureshi07@gmail.com | 647-373-7332 | Brampton, ON, Canada

Skills

- **Languages:** Python, Java, SQL, SAS, Ruby, Shell, JavaScript, HTML, CSS
- **Extensive experience:** DBMS, SQL Tuning, Jira, Algorithms, Tableau, Visualizations, Git, Excel

Experience

Bell Canada | Data Engineer

September 2017 – Present | Toronto, ON

- Primary data engineering team that manages over 6 Petabytes of data with over 150+ attributes per customer
- Lead data engineer for campaign tool (SMS, Email, Inbound, outbound) – 80M Offers Per Year
 - Refactored back-end for these processes from the ground up
 - Halved resource usage and runtime of these jobs and contributed heavily to documentation.
 - Integrated Virgin Home Internet and Churn data into these offer system
- Integrated and automated Small Business data (with Dun and Bradstreet) into our data warehouse, and created a list of prospects (80K) for outbound marketing
- Created Tableau dashboards and SAS macros to assist production to supervise over 8000 Jobs
- Part of the Bell's BI Graduate Leadership Program | [TalentEgg Best Grad Program of 2016](#)

[Grah Lab](#) | Computer Programmer

September 2016 – April 2017 | The Brain and Mind Institute, London, ON

- Assisted PhDs in all technical aspects of their thesis labs revolving around music and neuroscience
- Created experiments in Java and Matlab, that quantified and analyzed audio and video

Projects

Insight Lab | Undergrad Thesis: Machine Learning and Visualizations

May 2017 – August 2017 | Western University, London, ON

- Independently created [Decision Visualizer](#), an interactive web app to generate and visualization decision trees
- Using Python libraries scikit-learn, numpy, pandas, created a generic script that would parse csv data and create a classification decision tree
- This tree in Python was then parsed into a JSON file, that I referenced within the DOM of a framework
- Visualized this tree using d3.js in the browser, and allowed user to input new data on the webpage
- Project is now being used as a baseline for future students to iteratively improve

Game Design | HTML5 JavaScript Game

Jan 2017 – April 2017 | Western University, London, ON

- Lead for [Attack of the Bubbles](#), utilizing primarily the phaser JavaScript Library
- Developed collision and physics engine, particles, game flow, graphics, animations, JSON saving system, pause screen, and wrote game music

Education

Western University | BSc Honors Specialization in Computer Science, Minor in Psychology

September 2012 – August 2017 | London, ON

- 3.81 GPA in Major (Computer Science) | 3.67 cGPA
- Received Western Scholarship of Distinction and Dean's List
- Studied 2.5 years of Biochemistry in Medical Sciences prior to switching to Computer Science

Certifications

- [EDX DAT205x: Introduction to Data Analysis using Excel](#) | Data Mining, Pivot tables, Macros
- [EDX DAT203.1x: Data Science Essentials](#) | Microsoft Azure, Python, Seaborn, Matplotlib
- [Teradata: Introduction to Teradata / Advanced SQL Features](#) | Performance Tuning, Recursion, OLAP
- [SAS Programming 2](#) | SAS Procedures, Data Steps, Transformations, Raw Data file reading
- [SAS Advanced Macro Training](#) | Automation, Conditional Logic, Program Flow

Extracurricular

- **President** of Western's Pakistani Students Association | \$2000 Annual Budget | 150 Members
